Target audience

You use CVS or SVN and you want to try a more flexible tool? You have heard of [Git](#), [GitHub](#) or [GitLab](#)? These terms do not make any sense to you but you want to discover and use a version control system like Git? This training day is for you!

Goals

- Understand what a (distributed) versioning control system is
- Know what Git is, as well as what GitHub/GitLab are
- Become autonomous with Git on a daily basis

Prerequisites

None.

Training plan

- Introduction
 - versioning: why, what & how?
 - general concepts on (D)VCS
 - install party
- Working alone
 - create a git repository
 - start tracking changes (add, remove, staging area)
 - differences
 - history
 - stash
- Collaborating with Git
 - pull, push
 - remotes (introduction to GitHub/GitLab)
 - branches and simple workflows

Pricing for information purposes only (per attendee*)

400 € HT

* = as part of an inter-company training (scheduled by TailorDev Academy). From 3 employees of a same company/entity, it is more interesting to organize an intra-company training. Please get in touch with us!
